

The University of California, San Francisco (UCSF), is seeking a Chief of Diagnostic Imaging and Medical Director of Pediatric Radiology at the renowned UCSF Benioff Children's Hospital - Oakland. The successful candidate will direct clinical operations, section administration, and research program development. Also, the new chief will oversee educational efforts at this site while supervising and teaching residents, fellows, medical students, and post-doctoral trainees in pediatric imaging. Candidates must hold an MD or DO degree (or equivalent), be board certified or board eligible, and have completed fellowship training in pediatric imaging. The Division also has an available pediatric radiologist faculty role, so applicants at all experience levels are encouraged to apply.

UCSF Benioff Children's Hospitals have been recognized among the nation's best pediatric medical centers in all 10 specialties assessed in US News & World Report's annual survey of Best Children's Hospitals for 2021-2022.

### **Opportunity Highlights**

- Leadership opportunity and a faculty appointment within the Department of Radiology and Biomedical Imaging at UCSF
- 100% pediatric radiology case mix while working at a freestanding children's hospital, one of only five Level 1 Pediatric Trauma Centers in the state
- Flexible hybrid work model with the ability to work shifts from home – all faculty have been provided work-from-home stations with new single PACS system of UCSF with full integration of RIS and HIS deployed in December 2021
- Minimum of 1-1.5 day/week of non-clinical time
- Supervise and teach residents, fellows, medical students, and post-doctoral trainees in pediatric imaging
- Flexibility to work shifts in Mission Bay/San Francisco, if desired – tremendous collaboration opportunities with one of the most prestigious Radiology and Biomedical Imaging departments in the country
- Research opportunities are available but not required
- World-class pediatric surgical teams in all specialties; large pediatric hematology-oncology presence with Oakland serving one of the largest sickle cell anemia populations in the country

### **Community Highlights**

Vibrant Oakland, California, offers an urban-suburban feel with plenty of nightlife, diversity, great restaurants, and historic downtown with Victorian architecture and boutiques. Part of the San Francisco Bay Area, Oakland is close to Wine Country, waterfront towns, beaches, and Silicon Valley. Surrounded by natural beauty and breathtaking views, you'll enjoy a remarkable quality of life in Northern California.

- Easy access to San Francisco and the surrounding Bay Area

- Consistent sunshine year-round and endless opportunities to explore the great outdoors—hiking, biking, fishing, paddle boarding, camping, and much more
- Close to Napa and an array of beautiful wineries
- Niche rates Oakland an A+ in nightlife and diversity
- Endless amenities, including incredible shopping and dining options, an international airport, and professional sports teams

Applicants for the Division Chief role may submit a direct application via the UCSF Applicant Portal: <https://aprecruit.ucsf.edu/JPF03718>

*The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, or protected veteran status.*

For immediate consideration please inquire with an updated copy of your CV so we can discuss the position by phone. Also, inform me of your best available times to speak. I look forward to your reply and thank you for your review. Please do not delay as we anticipate a significant response.
