

Patrick Brady, MD, MSc
Professor of Pediatrics, Division of Hospital Medicine
Cincinnati Children's Hospital Medical Center

Patrick Brady, MD, MSc, is Professor at the University of Cincinnati College of Medicine, the Research Director for the Division of Hospital Medicine, and an attending physician at Cincinnati Children's Hospital Medical Center. He is a hospital-based pediatrician, improvement scientist, and health services researcher with a focus on improving the safety and value of hospital care.

His research seeks to co-produce with patients and families complex interventions and then compare their effectiveness on difficult and high stakes health systems problems. In his largest portfolio of work, he and his team have developed and implemented interventions to heighten situation awareness, a high reliability strategy, to improve the prediction, recognition, and treatment of deteriorating hospitalized patients. His current research is funded by AHRQ, NIH, and PCORI. He also is Editor-in-Chief of *Hospital Pediatrics* as well as the Science Officer for the Pediatric Research in Inpatient Settings (PRIS) Network of >100 children's hospitals.
