

Richard J. Chung, MD
Professor of Pediatrics
Duke University School of Medicine

Richard J. Chung, MD, is a Professor of Pediatrics at the Duke University School of Medicine and an adolescent and young adult health specialist at Duke Health. His academic and research interests focus on chronic conditions in adolescence, behavioral health and neurodiversity, positive youth development, and population health management. Dr. Chung has served in a variety of institutional and regional leadership roles related to adolescent and young adult health, children's population health, and value-based care innovation. He has also served in leadership roles with the American Board of Pediatrics, the American Academy of Pediatrics, and the Society for Adolescent Health and Medicine. Dr. Chung lives in Durham, North Carolina, with his partner, Gina, and his two sons, Caleb and Joshua.
