

Girish Dhall, MD

Head, UAB Division of Pediatric Hematology, Oncology, and Blood & Marrow Transplantation
Professor, Department of Pediatrics | Heersink School of Medicine
UAB | The University of Alabama at Birmingham

Dr. Girish Dhall is a Professor of Pediatrics and Benjamin Russell Endowed Chair in Pediatric Hematology & Oncology, and Division Director of the Pediatric Hematology, Oncology, and Blood & Marrow Transplantation Program at the University of Birmingham in Alabama (UAB) and Children's of Alabama (COA). He is Director of the Pediatric Neuro-oncology Program, Deputy Director of the Neurofibromatosis Clinical Trials Consortium, and he is titled Senior Scientist at UAB's O'Neal Comprehensive Cancer Center. His major area of research interest is clinical research in central nervous system (CNS) germ cell tumors and infant medulloblastoma and designing early phase clinical trials for patients with pediatric brain tumors.
