

Linda DiMeglio, MD, MPH  
Professor of Pediatrics  
Department of Pediatrics  
Indiana University School of Medicine  
Indianapolis, Indiana

Dr. Linda DiMeglio is Chief of the Riley Hospital for Children Division of Pediatric Endocrinology and Diabetology. She directs local and national research teams focused on preventing type 1 diabetes, preserving beta cell function, and improving metabolic control and quality of life for persons living with the disease. She is the Vice Chair for the Type 1 Diabetes TrialNet research network and the co-PI of the DiabDocs K12 National Physician Scientist Development Program. She also is engaged in research in metabolic bone disorders. She is a graduate of the Executive Leadership in Academic Medicine Fellowship program.

Locally she serves as the Indiana Clinical and Translational Research Institute (CTSI) Director of Career Development and co-chairs the CTSI Pediatric Project Development Team. Dr. DiMeglio also maintains an active clinical practice, caring for children with diabetes and endocrine disorders and mentoring trainees.
