

Anne Dubin, MD
Professor of Pediatrics, Cardiology
Chief, Division of Pediatric Cardiology
Stanford School of Medicine

Dr Dubin attended the University of Rochester School of Medicine and Dentistry and then proceeded to Babies Hospital at Columbia Presbyterian Medical Center for a residency in pediatrics. Her cardiology training consisted of 3 years of pediatric cardiology at Children's Hospital of Philadelphia and Yale-New Haven Hospital and a year of adult electrophysiology training at Yale-New Haven Hospital. She joined the faculty at Packard Children's Hospital at Stanford in 1995 and is presently a Professor of Pediatrics at Stanford, and Division Chief of Pediatric Cardiology at Stanford School of Medicine. She also serves as the Director of the Betty Irene Moore Heart Center at Lucile Packard Children's Hospital, Stanford Medicine. Her interests in clinical electrophysiology include management of arrhythmias in end-stage heart disease, specifically in device therapy in heart failure arrhythmias. She is well known for her work in the application of biventricular pacing to children, and to patients with congenital heart disease.
