

Leonel Rodriguez, MD  
Associate Professor of Pediatrics  
Section Chief, Pediatric Gastroenterology & Hepatology  
Director, Gastroenterology Procedure Program, Pediatrics  
Yale School of Medicine

Leonel Rodriguez, MD, is chief of pediatric gastroenterology for Yale Medicine. He treats chronic and acute gastrointestinal problems in pediatric patients and has special expertise treating problems with pediatric gastrointestinal (GI) function known as motility and functional gastrointestinal disorders. Dr. Rodriguez became interested in pediatric GI motility and functional disorders almost 20 years ago, when he saw that there were only a handful of specialists in the country.
