

**Andrea Dean, MD, FAAP**

Associate Professor of Pediatrics  
Baylor College of Medicine

Andrea Dean, MD, is a pediatric hospitalist at Texas Children's Hospital. She is an experienced educator and mentor, with a focus on residency education and faculty development. She is most passionate about teaching nuisances in the clinical care of hospitalized children, including emerging topics, improving family-centered communication, and implementing shared-decision making. She is an advocate for improved inpatient and outpatient care and resources for mentally ill children and adolescents.
