

**Scott E. Hadland, MD, MPH, MS**

Chief, Division of Adolescent and Young Adult Medicine  
Associate Professor of Pediatrics  
Mass General for Children / Harvard Medical School

Scott Hadland is the Chief of Adolescent and Young Adult Medicine at Massachusetts General Hospital and an Associate Professor of Pediatrics at Harvard Medical School. He holds triple board certification in General Pediatrics, Adolescent Medicine, and Addiction Medicine. Dr. Hadland's clinical and research interests focus on adolescent and young adult substance use disorder prevention and treatment, and on improving care for youth and families affected by substance use. As part of these efforts, he seeks to improve education on addiction to pediatricians in the US and beyond. His work has been published in leading journals and featured in *The New York Times*, *Washington Post*, *CNN*, *NBC News*, *National Public Radio*, and other leading news outlets. He is a member of the editorial board of *Pediatrics*, and was the 2020 recipient of the Emerging Leader Award in Adolescent Health from the American Academy of Pediatrics. In 2023, he was selected to the Presidential Leadership Scholars program, which brings together national leaders committed to facing critical challenges in partnership with the Clinton Presidential Center and George W. Bush Presidential Center. Dr. Hadland's research has been funded by the National Institute on Drug Abuse, Centers for Disease Control and Prevention, and American Heart Association, among other foundations.
