

David S. Hains, MD, MBA

Byron P and Francis Hollett Professor of Pediatrics
Chief, Division of Pediatric Nephrology and Hypertension
Indiana University School of Medicine

David Hains is a Pediatric Nephrologist and Division Chief at Indiana University School of Medicine. Dr. Hains is the Byron P. and Francis Hollett Professor of Pediatrics with tenure. Dr. Hains' career has focused on excellence in clinical innovation, research, education, and quality. He has had continuous PI R01-equivalent NIH support since 2010 and 89 peer reviewed manuscripts including senior/corresponding authorship in high-impact journals *JAMA*, *Nature Communications*, *Journal of Clinical Investigation*, *Proceedings of the National Academy of Sciences*, and *Clinical and Translational Medicine*. His research on the innate immune system of the kidney and urinary tract has provided foundational insight and identified genetic variations associated with urinary tract infection risk in children. He also discovered the initial serologic response of COVID-19 in children on dialysis and healthcare workers. He has mentored multiple trainees. He has served multiple NIH grant study sections including Chair of O'Brien Urology Centers of Excellence Study Section.

He serves as the Co-Chair for the UTI Clinical Practice Guidelines Committee of the American Academy of Pediatrics. He holds or has held numerous leadership roles for the American Society of Pediatric Nephrology. He has also participated in standard setting for the American Board of Pediatrics.

Dr. Hains completed medical school at Indiana University, the Harvard Business School for Leadership Development and attained his Masters of Business Administration from Indiana University.
