

**Ann M. Neumeyer, MD**

Medical Director of Lurie Center  
Massachusetts General Hospital  
Lurie Family Endowed Chair in Autism  
Associate Professor of Neurology  
Harvard Medical School

Ann Neumeyer, MD, is a pediatric neurologist with over 25 years of experience in the diagnosis and treatment of children with autism and of children with neurodevelopmental disabilities. She is an Associate Professor of Neurology at Harvard Medical School, MGH Lurie Family Endowed Chair in Autism and Medical Director of the Lurie Center for Autism. As a member of Massachusetts Autism Commission and the immediate past co-chairperson of the steering committee of the Autism Speaks / Autism Care Network, she works to develop better clinical care for children both in Massachusetts and in North America. Her clinical observations have fueled a strong interest in medication trials and investigations of metabolic and bone development issues in children with autism.
