

Andrew M. Fine, MD, MPH

Senior Associate Physician in Pediatrics

Boston Children's Hospital

Associate Professor of Pediatrics and Emergency Medicine

Harvard Medical School

Andy Fine is a pediatric emergency medicine specialist who has dedicated his career towards developing innovative approaches to improve the lives of individual children and the public health. He has developed methods to incorporate real-time epidemiology into clinical prediction models and has created and implemented innovative tools that predict the likelihood of hospital admission from the emergency department. He is most appreciative of his wonderful colleagues and generous mentors, and he is grateful to the families and patients who have allowed him to participate in their care.
