

Jennifer R. Walton, MD, MPH, FAAP

Associate Professor of Clinical Pediatrics
Section Chief, Developmental Behavioral Pediatrics
University of Miami Miller School of Medicine

Dr. Walton is an Associate Professor of Clinical Pediatrics, and the Section Chief for Developmental and Behavioral Pediatrics in the Department of Pediatrics at the University of Miami Miller School of Medicine. Dr. Walton is also the Director of Disability Health Equity and Social Justice at the Mailman Center for Child Development (a university center of excellence in developmental disabilities). Dr. Walton specializes in the identification and management of children with various developmental and behavioral challenges. Dr. Walton champions the rights of individuals with disabilities to access healthcare, education, and employment. Dr. Walton facilitates the developmental behavioral pediatrics (DBP) resident rotation and is a faculty member of the Mailman Center's Leadership Education in Neurodevelopmental and related Disabilities (LEND) program, teaching interdisciplinary trainees on health equity, disability, and intersectionality. At the national level Dr. Walton is a member of the executive committee of the American Academy of Pediatrics' Section on Developmental Behavioral Pediatrics, and a member of the professional advisory board for the Williams Syndrome Association. Dr. Walton previously served as a member of the Society for Developmental and Behavioral Pediatrics' Board of Directors and on the executive committee of the Pediatric Section of the National Medical Association (NMA). Dr. Walton was a member of the consensus study committee from the National Academies of Science, Engineering, and Medicine (NASEM) that in 2024 published the Launching Lifelong Health by Improving Health Care for Children, Youth, and Families. Dr. Walton earned her Doctor of Medicine degree from the Northeastern Ohio Universities College of Medicine (now called NEOMED), completed her pediatrics residency from the Children's Hospital of Michigan, completed her fellowship at The Children's Hospital of Philadelphia, and earned her Master's in Public Health from the University of Pennsylvania Perelman School of Medicine.
