# 2025-2029 STRATEGIC PLAN

American Pediatric Society Strategic Plan - 2025-2029				
Vision	A healthier future for all children and adolescents.			
Mission	To strengthen academic pediatrics by expanding the workforce, nurturing leaders, and developing innovative approaches to address child and adolescent health challenges.			
Values	Collaboration, Community, Compassion, Curiosity, Equity, Excellence			
Domain	Child Health Workforce	Leadership Development & Engagement	Confronting Child Health Crises	APS for the Next 100 Years
Goal	To nurture, grow, and retain the academic child health workforce, including pediatrician scientists.	To create and support a diverse membership of engaged, inspired and resilient leaders for the future of pediatrics.	To identify and confront child health crises by leveraging APS' resources and convening partners.	To ensure long-term sustainability for APS through member engagement, financial stability, strategic investments and risk assessment.
Strategic Objectives	Nurture: Strengthen alliances and collaborations with other organizations within pediatrics to contribute to and advocate for the pediatric workforce of the future	Develop and support programs for emerging and/or aspiring child health leaders who are not yet APS members.	Prioritize child health crises where APS can make a unique impact.	Increase member engagement by creating programs and products that provide additional value for APS members and ensure ongoing relevance of the Society.
	Grow: Initiate pathway programs leading to pediatric residency and fellowship training.	Inspire APS members with leadership and career development programs.	Engage and deploy APS capacity, maintaining a balanced portfolio of short- and long-term activities.	Develop a sustainable financial plan using fundraising and philanthropy to support APS' efforts.
	Retain: Expand opportunities to support the development of early-stage investigators and retain mid- and senior-stage investigators.	Provide opportunities for engagement and networking to enhance career fulfillment.	Collaborate and convene with PPC and partner organizations to address priority child health crises.	Strategically invest in programs and efforts to grow APS' visibility, connection, and influence across academic pediatrics and beyond.
Committees				Develop approaches to assessment and management of risks to APS

# ADVOCACY POLICY COMMITTEE

---

## Charge:

Empower our distinguished member leadership in alignment with allied pediatric societies to use policy to advocate for improved child health through academic pediatrics.

## Goal:

Harness the powerful voice of scholarship to improve child health by advancing evidence-based policies and train, develop, and support the next generation of advocates.

APS is part of the Pediatric Policy Council (PPC), and the Advocacy Policy Committee Co-chairs are PPC representatives.

# ADVOCACY POLICY COMMITTEE WORKGROUPS

---

During the committee meeting at PAS 2025, the Advocacy Policy Committee formed three workgroups: *Medicaid, Combating Anti-Science & NIH Coalition*.

## Medicaid Workgroup Goal:

Mobilize APS members in a grass-tops effort urging key senators to protect Medicaid and SNAP.

## Workgroup Efforts:

- Sent targeted email campaigns to APS members with senators' contact information and Medicaid-protection talking points.
- Sent targeted emails to APS members with governors' contact information urging adoption of Summer EBT for 2026.
- Submitted op-eds to local and national newspapers.

# ADVOCACY POLICY COMMITTEE WORKGROUPS

---

## Combating Anti-Science Workgroup Goal:

Address and counter misinformation and disinformation that undermine scientific integrity, public trust, and evidence-based policy that affects child health and pediatric research.

## Workgroup Efforts:

- Published commentary in *Pediatric Research – Misinformation and disinformation undermine progress in pediatric research: challenges and solutions.*
- Submission for PAS 2026 Meeting was accepted – *Advocacy Strategies During a Challenging Time for Pediatric Vaccines: Developing Novel Approaches to Dispel Vaccine Misinformation Can Save Lives!*
- Hosting book club to discuss *Denying to the Grave: Why We Ignore the Science That Will Save Us.*

# ADVOCACY POLICY COMMITTEE WORKGROUPS

**Pediatric Coalition on the NIH ~ Organizations Represented:** American Pediatric Society (APS), American Academy of Pediatrics (AAP), Academic Pediatric Association (APA), Association of Medical School Pediatric Department Chairs (AMSPDC), Children's Hospital Association (CHA), Coalition for Pediatric Medical Research (CPMR), and Society for Pediatric Research (SPR).

## Workgroup Goal:

Preserve and expand pediatric research across the NIH, to include defending NICHD, by speaking with a unified voice on key issues to maximize the impact of advocacy efforts for children.

## Workgroup Efforts:

- Led by CHA, the Pediatric NIH Coalition sent a letter to House and Senate Appropriations Committee leaders before their recent vote encouraging continued high levels of funding for NIH.
- Helped to identify stories and featured researchers for CHA's "Made Possible by..." video that features pediatric researchers talking about their discoveries. When video became available in early December, the Coalition shared it through their various networks.
- CHA and CPMR hosted meetings to learn more about the FAIR Model as an alternative to the current indirect cost model.
