The Division of Cardiology within the Department of Pediatrics at the University of Wisconsin School of Medicine and Public Health is seeking an academic Pediatric Cardiologist to assume the role of Division Chief.

We seek a leader with enthusiasm for academic medicine who will encourage, inspire, and empower division members. The Division Chief provides strategic and operational leadership; oversees divisional faculty and staff; spearheads the expansion of clinical, education, and research programs; and guides faculty professional development. This is an opportunity for a full-time Professor, Associate Professor, or late-stage Assistant Professor.

Members of the Division of Cardiology strive to maintain excellence in clinical care, education, and research. The division recognizes that excellence in pediatric cardiovascular medicine and surgery requires a well-coordinated team approach to care. Important contributors to divisional activities include physicians, nurse practitioners, registered nurses, echocardiography technicians, exercise physiologists, and our patients, their families, and their referring physicians.

The Pediatric Heart Program at UW Health Kids is a robust, rapidly growing, nationally ranked program. It has dedicated teams focused on advanced cardiac imaging, fetal cardiology, heart failure and transplant, adult congenital heart disease, pediatric preventive cardiology, and others.

The Department of Pediatrics is a vibrant academic department comprising more than 230 faculty members in 16 subspecialty divisions. The department promotes and enhances the health of children through outstanding clinical care, exemplary education of pediatric trainees, performance of cutting-edge research, and vigorous advocacy.

The University of Wisconsin–Madison is an Equal Opportunity educator and employer.
