The Division of Hematology, Oncology, Transplant & Cellular Therapy within the Department of Pediatrics at the University of Wisconsin School of Medicine and Public Health is seeking an academic Pediatric Hematologist, Oncologist, or Pediatric Stem Cell Transplant Physician to assume the role of Division Chief.

We seek a leader with enthusiasm for academic medicine who will encourage, inspire, and empower division members. The Division Chief provides strategic and operational leadership; oversees divisional faculty and staff; spearheads the expansion of clinical, education, and research programs; and guides faculty professional development. This is an opportunity for a full-time Professor, Associate Professor, or late-stage Assistant Professor.

The Division of Hematology, Oncology, Transplant & Cellular Therapy provides innovative, comprehensive, and compassionate family-centered clinical care to infants, children, adolescents, and young adults with primary hematologic or oncologic disorders. In addition, the division has a Pediatric Palliative Care program, which aims to advance care and comfort to patients and families facing serious and life-altering illnesses. Members of the division believe excellence in clinical care is dependent upon research and teaching, and they embrace their complete integration through all aspects of this program.

The Department of Pediatrics is a vibrant academic department comprising more than 230 faculty members in 16 subspecialty divisions. The department promotes and enhances the health of children through outstanding clinical care, exemplary education of pediatric trainees, performance of cutting-edge research, and vigorous advocacy.

The University of Wisconsin–Madison is an Equal Opportunity educator and employer.
